SUMMARY

Entry-level Linux and System Support engineer with RHCSA & RHCE certification and hands-on exposure to Linux system administration and Windows environments. Experienced in basic troubleshooting, log analysis, and monitoring concepts. Motivated to contribute to a critical support role by ensuring timely issue resolution, system reliability, and effective user support.

EDUCATION

- (BTech) Bachelor of Artificial Intelligence and Data Science | 7.33 CGPA Aug 2023 – June 2026
Maharashtra Institute of Information Technology, Aurangabad
- (Diploma) Diploma in Computer Science | 8.54 CGPA July 2019 – June 2022
Marathwada Institute of Technology, Vaijapur

TECHNICAL SKILLS

- **Programming Languages :** Python, HTML, CSS
- **Operating Systems:** Linux (CentOS, RHEL), Windows
- **Cloud Platforms:** AWS (EC2, S3, VPC, IAM, SQS, CloudWatch)
- **Networking:** TCP/IP, DNS, DHCP, FTP, NTP, NFS, Firewalls(iptables, firewallld)
- **System Administration:** User & group management, LVM, file permissions, ACLs, service management
- **Containers:** Docker, Podman
- **Automation:** Ansible, Shell Scripting

CERTIFICATIONS

- Red Hat Certified System Administrator (RHCSA) | Certification ID: 220-179-238** Oct 2025
- Administered RHEL systems with user and group management, permissions, and ACL configurations.
 - Configured and maintained LVM for scalable storage using physical, volume, and logical groups.
 - Familiar with core network services like DNS, DHCP, NTP, SSH, and Samba.
 - Knowledge of Linux security concepts such as firewallld, SELinux, and SSH access controls.

PROJECT

Automated Linux Server Provisioning using FAI (Fully Automatic Installation)

- Used an existing FAI setup in a college lab environment for automated Linux OS installation.
- Understood the PXE boot workflow (DHCP, TFTP, HTTP/NFS) used during provisioning.
- Worked with predefined FAI profiles and classes for standardized system builds.
- Performed basic validation and troubleshooting of build failures under faculty guidance.
- Gained practical exposure to Linux deployment and automation concepts.

DECLARATION:

I hereby declare that all the details provided are true to my knowledge and I promise that if I am placed at your concern, I will do my job to the best satisfaction of my superiors.
